This album is a gritty journey through the depths of human emotion, blending the rebellious spirit of rock with the soulful introspection of a solitary rider.

The band's latest album crashes rooted in grunge, stoner rock, and alternative metal, in a storm of electrifying riffs evoking a journey down endless highways under vast, tumultuous skies.

Visceral energy reminiscent of roaring Harley Davidson engines and the burning bite of American whiskey.

# OUR JOURNEY

---

Originating from the breathtaking mountains of Parma, Italy, with a rich international influence, "Stillhouse" embarked on their musical journey in 2013. Originally known as "Five Minutes Before", they have grown year by year with the aim of creating something truly authentic that represents them.

Their journey began with the release of their debut single "SLY" in 2018, a powerful tribute to classic rock. This milestone was followed by a significant lineup change and the release of "If I Die Tomorrow" in 2019, showcasing their evolution with strong grunge and heavy rock influences. Demonstrating their versatility and dedication, Stillhouse recorded a series of demos, including the tracks "Limbo" and "Grimbook," for an audition with the tour manager of the iconic band Tool.

In 2021, Stillhouse took a bold step forward by recording the EP *The Modern Way*, the soundtrack for the eponymous film that won the Nice Film Festival. This EP features four powerful tracks infused with hard rock and blues elements, a tribute to the band's early influences. The project was a special request from the film's producer, highlighting Stillhouse's growing reputation and their ability to adapt their sound to meet specific goals while maintaining their unique personality.

The year 2022 marks the beginning of an exciting new chapter as Stillhouse begins recording their first full-length studio album. This album is now complete and is presented in this EPK as a preview, ready for engagement offers and poised to captivate international audiences and become a major force in the rock music world.

Enjoy listening.

## LIVE SETTING

Flexible approach to live performances. We adapt our setup to suit different venues and needs.

### Duo

The Duo features vocals and two guitars, as stripped-down performance delivering a selection of tracks from our latest album alongside some earlier works. We also offer a repertoire of reimagined covers.

### Trio

With two guitars, vocals and drums, the Trio can perform our entire catalog, but without the fuller sound of the bass. This setup is ideal for medium-sized venues.

### Full Band

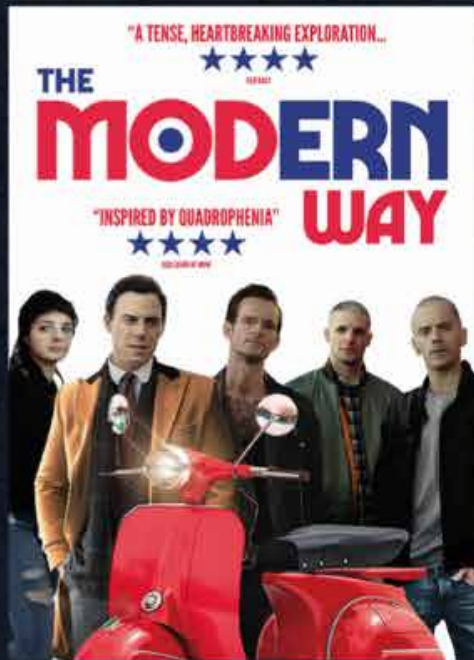

The Full Band includes vocals, two guitars, bass, and drums, delivering a complete experience. With the addition of the bass, we bring greater depth, rhythm, groove, and power to our performance, making it ideal for larger venues and big crowds.

## Movie Soundtrack

The Modern Way is a drama film set in 1980s Britain. Working on this project was a great privilege for us and an opportunity to be heard and known by a wider audience. While it is not a mainstream film, it has won prestigious international awards and received praise from critics. It would be a privilege and a pleasure for us to work on new film projects in the future and continue showcasing our evolving style and music. We never deny our past, we love our past, but the prospect of tomorrow looks always better.

During a prestigious interview with the film's creator Jake Henderson and the director Giuseppe Monticciolo, they spoke with satisfaction about our work:

" THE SOUNDTRACK TO THE FILM IS A DEFINITE STAND OUT AND FITS PERFECTLY WITH THE PERIOD THE FILM IS SET. HOW IMPORTANT WAS IT TO GET THAT RIGHT?"

Jake – I had always said to my co-creator Giuseppe from the very beginning of creating this film that it needs to have the right music. Music that not only fit's the right scenes but music which is going to send the audience back in time to the days they remember. This is a low budget film but the budget was used to acquire the music rights is really well spent in my opinion. Not only do we have some very well-known artists in the film but we also have new artist's, Stillhouse, some real great talent that deserve to be heard. They also did a phenomenal job with the music for this film.

Giuseppe – The soundtrack is probably mine and Jake's favourite part of the entire film, so we really don't want to give too much away. We will keep that as a surprise for the audience."

## Advertising Soundtrack
